DevShailendra | DevShailendra

PROFESSIONAL SUMMARY

.NET Developer with 4+ years of experience in developing scalable web applications, REST APIs, and customized business solutions using C#, ASP.NET Core, and SQL Server. Experienced in building ERP, CRM, inventory, and workflow automation systems based on client requirements.

Skilled in API development, authentication, database optimization, debugging, and software testing. A collaborative team player with strong problem-solving abilities, capable of handling challenges efficiently and delivering reliable software solutions. Familiar with Git, AI-assisted development tools, and modern backend development practices.

Technical Skills

Languages & Frameworks: C#, ASP.NET Core, ASP.NET MVC, Web API, REST APIs, JSON, JavaScript, jQuery

Frontend: HTML5, CSS3, Bootstrap, AJAX

Database & ORM: SQL Server, Entity Framework, Dapper, LINQ
Tools & Platforms: Git, GitHub, Visual Studio, SSMS, Postman, Swagger, Burp Suite
Authentication & Security: JWT Authentication, OAuth, ASP.NET Identity
Development Practices: Agile/Scrum, Unit Testing, API Testing, Debugging, SDLC, AI-Assisted Development
Additional Skills: Payment Gateway Integration, Software Testing, Requirement Gathering, Business Workflow Automation, RDLC, iTextSharp Report Viewer

Experience

Sigma IT Softwares Pvt. Ltd. **April 2022 – Present**
Software Development Engineer *Lucknow, India*

- **Developed and maintained scalable web applications** using **C#, ASP.NET Core, ASP.NET MVC, and SQL Server** for business-critical client solutions**.**
- **Designed and optimized RESTful APIs** using **ASP.NET Web API,** improving **API response time by 30% through query optimization** and **efficient resource handling.**
- **Built secure authentication** and **authorization workflows** using **JWT and OAuth to enhance application security** and **user access control.**
- **Improved application performance** by **optimizing SQL Server queries, Entity Framework operations,** and **backend business logic,** contributing to a **20% increase** in **system efficiency.**
- **Collaborated with frontend** and **cross-functional teams** to **deliver responsive user interfaces** using **JavaScript, jQuery, AJAX, HTML5, CSS3,** and **Bootstrap.**
- **Automated** and **streamlined business workflows** through **custom software solutions, helping clients improve operational efficiency by approximately 25%.**
- **Performed code reviews, debugging,** and **unit testing to improve software quality** and **reduce production issues.**
- **Used tools** such as **Postman, Swagger** and **Burp Suite** for **API testing** and **documentation to support efficient development** and **integration workflows.**
- **Worked in Agile/Scrum-based development environments with regular sprint planning, task tracking, and collaborative delivery processes.**
- **Utilized AI-assisted development tools** including **ChatGPT, Claude and GitHub Copilot** for **faster debugging, code refactoring, documentation support,** and **development productivity improvements.**

Personal Projects

Customized Accounting ERP System | ASP.NET Core MVC, Web API, SQL Server, Entity Framework, jQuery

- **Developed a customized ERP system** for **managing purchase orders, sales, stock,** and **inventory operations** for **business workflow automation.**
- **Implemented role-based authentication** and **authorization** to **manage secure access** for **admin** and **operational users.**

- **Collaborated** with **stakeholders** to **customize business workflows** and **reporting features based** on **client requirements.**

CRM Software | ASP.NET Core MVC, SQL Server, Entity Framework, JavaScript, jQuery

- **Developed a customized CRM application** to **manage leads, customer follow-ups, meetings, and employee activities** efficiently.
- **Implemented lead management** workflows including **lead creation, status tracking, follow-up scheduling,** and **meeting management.**
- **Designed role-based access functionality** for **employees, Telecallers, managers, and administrators to control data visibility and operations.**
- **Improved workflow efficiency** by **automating lead status updates** and **employee activity tracking processes.**

E-Commerce Web Software and APIs | *ASP.NET Core, SQL Server, jQuery, Ajax*

- **Developed a full-fledged e-commerce web application** using **ASP.NET Core MVC** with a modular architecture for seamless integration of product *catalog*, shopping cart, order processing, delivery status, and user management functionalities with APIs.
- **Designed and implemented custom RESTful APIs** in **ASP.NET Core** to manage CRUD operations for products, categories, customers, orders, and inventory, significantly improving data access efficiency and scalability.

Task Management System | *ASP.NET Core, Entity Framework, SQL Server*

- Developed a **task management application** using **ASP.NET Core MVC** and **Entity Framework**, enabling users to efficiently manage tasks, track deadlines, and prioritize activities.
- Implemented **role-based authentication** using **ASP.NET Identity**, enhancing security and enabling differentiated access for admin and user roles.

Customized Business Solutions

- Worked on multiple customized business applications including ERP, CRM, inventory management, and workflow automation solutions based on client-specific requirements.
- Collaborated directly with clients and internal stakeholders to gather requirements, customize application workflows, implement feature enhancements, and deliver solutions aligned with business expectations and operational needs.

  - **MLM Business Softwares**
  - **HRM System**
  - **LMS**

Certifications

- **Microsoft Azure Fundamentals (AZ-900) —** Currently Preparing

Education

Chandigarh University **Aug 2022 – Sep 2024**

Master of Computer Applications in Information Technology *Punjab, India*

- ***Related Coursework**: Developed skills in **SQL**, **database design**, knowledge of building scalable web applications using **ASP.NET**, **JavaScript**, and **MVC architecture**. Using Tools **Visual Studio**, **Postman**, **Swagger** (API Documentation)*

Dr Bhimrao Ambedkar University **Aug 2018 – Sep 2024**

Bachelor of Computer Applications *U.P., India*

- ***Related Coursework**: Developed strong problem-solving skills through the study of **algorithm design**, **complexity analysis**, and **optimization techniques**. Gained experience with key OOP principles including **inheritance, polymorphism, encapsulation,** and **abstraction** for building scalable and reusable software systems.*
